Introduction

Trice chemicals, a privately owned company has grown from its humble beginning in 2001 to a multinational company with ISO 9001: 2008, 14001: 2004 and OHSAS18001: 2007 standards under the able leadership of the management, the esteemed company has become a niche leader as manufactures and traders of high quality cleaning chemicals. Having a strong client base in UAE, Africa & Asia. Trice chemicals are the biggest manufacturer of liquid cleaning chemicals in UAE with a total manufacturing capacity of 40,000 liters per day

Trice Chemicals is recognized as one of the leading manufactures of detergent and cleaning chemicals in the middle east. We are specialised in manufacturing kitchen care products, washroom care chemicals, healthcare products, laundry chemicals, floor cleaners, Auto care products and also deals with janitorials & paper products. Based on consistent quality, Competitive pricing, technical support and committed service quality we have been able to pace up with the ever increasing demands of the chemical market.

We hold a customer focused approach to confirm that the customer is satisfied in the products as well as the quality we serve. So we specializes in offering wide range of high quality hygiene products for different industry with competitive prices.

Our Mission

Researching, Developing, and Producing environment friendly high quality cleaning products, to replace many hazardous and toxic chemicals, and there by keeping the users and environment safe. Also to provide customer satisfaction anywhere, anytime, and delivering on a promise, there by building a healthy relationship.

Our Vision

Providing a clean, safe and healthy environment by producing effective, ethical and environmental cleaning products for our completely satisfied customers and employees. Consumer needs alone will be our guiding philosophy in manufacturing and marketing of products that fascinate people and satisfy their souls.

GCC And African market

The warehousing and transportation facility of Trice Chemicals always helped in maintaining the position as the market leaders in GCC and African countries. Trice Chemicals giving a total storage capacity of 200,000 Sq feet that make us the biggest stocklist is GCC. Because of this facility, Trice Chemicals always have the control on prices of products and deliver the products any where GCC in very short time.

As Trice Chemicals already identified the potential of African market, We concentrate more on that sector. And as a result of hardwork, Trice Chemicals signalled their arrival in African market already. Now our products are there in Kenya, Nigeria, Somaliya. TRICE CHEMICALS is expecting a steady approach in African markets.

Our Commitment to Quality

As an ISO 9001, 14001 and OHSAS 18001 certified Company, we embrace a quality philosophy of total dedication to continuous improvement, we achieve by focusing on our customer's needs through a successful teamwork by valuing their feedback as an opportunity to improve our service and products ultimately up to customer satisfaction.

Our pledge to environment

Trice Chemicals is committed for creating a safe, secure comfortable and environmental friendly world with chemical resources. In order to make this world a green planet, Trice Chemicals always follow the instruction from the Government authorities. Planting trees in the remote area is not considered as duty of Trice Chemicals, but responsibility towards the environments. Trice Chemicals took the initiative in collecting the waste water from the water treatment plants and instead of recycling this water, we use this water for growth of trees and plants. Following these instructions strictly helped Trice Chemicals to achieve the certificate from the Environment protection & development Authority, Government of RAK
