

# **PRODUCT INFORMATION**

## **TRIPINOL-PINE DISINFECTANT**

### **DESCRIPTION**

Tripinol pine disinfectant is a concentrated general purpose disinfectant with added detergent. It is a low viscosity, clear, dark green liquid with distinct odor of fresh pine.

### **FEATURES**

- It is a general purpose pine disinfectant fluid. It complies with BS 6424 (Group QAP 30) in that it satisfies the BS 6471 test at dilution of 1 part of tripinol in 30 parts of water.
- The surfactants used are biodegradable

### **KEY INGREDIENTS**

It is a blend of powerful quaternary ammonium halide, aromatic oils, nonionic surface active agents and pine.

S.G at 20°C	1.00	pH at 25°C	6.7-6.9

### **PRODUCT DIRECTIONS**

- For general disinfection, 1 part of tripinol is diluted with up to 30 parts of water.
- A lower dilution of 1 to 10 or 1 to 5 may be necessary for heavily contaminated surfaces.
- Undiluted tripinol can be used for drains and waste disposal areas.

### **PACKING**

This product is supplied in plastic containers of 1, 5, 25 or 200 liters capacity. Trice chemicals guarantee the quality of the product. Its application recommendations are based on tests and practical experience and accept no responsibility for damage caused by improper use of the product.

### **STORAGE**

Product must be protected from extremes of temperature. It must not be allowed to freeze. In unopened containers the product is stable for two years.

The information herein is true and accurate, to the best of our knowledge. Since environment conditions are beyond our control, no warranty, expressed or implied, is made for this product when used in a manner inconsistent with this information.
