TRICE CHEMICALS

PAPER PRODUCTS

Trice llc is a privately owned limited organization that was established in 2002. Trice llc is a company whose aim is to become a market and niche leader in production and distribution of high quality products.

Trice Chemicals is committed to being the prime supplier of hygiene products, and to develop the company whilst offering excellent value for money.

Our Main Expertise Areas

- Cleaning Chemicals
- Surfactants
- Oilfield chemicals
- Janitorial Items
- Solvents
- Lab chemicals

Our company represents some well-known European, African and Asian manufacturers with high-quality products and brands.

We manufacture high quality products that have a diverse use in both industrial and home use. We have set up a modern production and distribution system that is both reliable and scientific. This ensures that we are able to satisfy our customer's needs.

Trice specializes in offering wide range of high quality chemical raw materials for different purposes with competitive prices. We are focused by the desire to be a prominent manufacturer and dealer of high quality products. We have embraced the latest technology in our production processes so as to ensure that the products we produce meet quality standards as set by the various quality control bodies.

We hold a customer focused approach where we seek to confirm that the customer is satisfied in the products as well as the quality of service provided by us. Being in the manufacturing industry also exposes us to the challenge of keeping a clean and toxic free environment. In this regard, we always ensure that our methods of waste disposal are environmental friendly.

Trice llc is an equal opportunity employer and has a team of dedicated individuals who handle their respective departments with skill and professionalism required. We will attain our aims through dedication to customer care and our passionate confidence in developing our staff to realize their full potential for the mutual advantage of our customers and our company.
